

cultura de miscigenação, original e bonita para divulgar ao mundo.

Espero e desejo que um dia possa ouvir dizer que Macau é uma cidade onde as pessoas falam português e chinês... Seria tão bonito que esta notícia pudesse chegar a qualquer parte do mundo e atraísse muitas pessoas para virem visitar esta cidade tão pequena mas linda e especial...

My Studying Abroad

This is the first time I have gone abroad. I felt excited and nervous. Without any experience, I went to England with the other nine teachers. They were all friendly and helpful during my staying there. I really learnt a lot from them.

Exeter is a beautiful and comfortable city. My host family is very kind. We always had a long chat after dinner. Therefore, I got a chance to practise my oral English, and also knew more about England. To my surprise, their daughter-in-law was an English teacher in London. We shared our teaching experience one day. I could find some new teaching inspiration from her. In addition, I had two housemates; one came from Japan while the other came from Switzerland. They provided me a chance to know more about their culture and how to get along with people from different nations. I enjoy staying with them the most.

I also enjoy my study in the International School. I prefer the morning class. It was Intensive General English Course. Paul was a competent teacher. He illustrated some grammar points with diagrams so as to make some difficult and vague points seem easier. It made me understand how

flexible English grammar is. I think I can do the same in my grammar teaching. Moreover, most of the games he used in the classes were interesting and practical. I think I will change them a little bit and make them suitable for my students. I hope to teach my students in a more interesting and active way in the coming semester.

In general, I gain valuable experience from my study in England. I really appreciate to have a chance to study abroad.
