

Riddles

Vanessa

I am green in colour
when I am young, yellow when I grow-up
and yellow with dark spots when I am old.

What am I?

I am the beginning of the swan,
the middle of the oyster and the end of the octopus.

What am I?

I have three brothers.
However, our skin colours are different. One is purple,
another one is green and the other one is white.

After cooking,
we are as soft as cotton.

What are we?

I have two consecutive double letters.
I usually smell good to my lovers and make
them fresh for the day. What am I?
